

A Complete Gamecock Guide

By: Gabriella Campbell

My goal for this website is to create a guide for all incoming freshman, transfers, or anyone that is a part of the gamecock community. Creating a guide would benefit new comers and encourage them to meet new people, try new things, and understand what it truly means to be a gamecock! I want this website to have all the information I wish I had coming into college, and what I am still learning as I progress through. Each page will hold information, details, photos, and more to help everyone navigate their way through life in Columbia. I want to make sure this website applies to anyone who would like to use it.
